PACKING THREE VOLVO PENTA IPS DRIVES, THE DELTA 54 IPS is a masterpiece of high performance carbon engineering. Capable of 38 knots flat out and with a comfortable cruise of 30 knots, the 54-foot motor yacht delivers guests in speed and style – making it the perfect choice for this fashion shoot. Launched in 2012, the model went on to win a slew of industry awards for its innovative carbon construction, which offers extreme strength, efficiency and light weight, and also for that slick, pared-back Scandinavian styling. Built in Sweden, the 54 IPS comes in three versions: the Carbon, featured here; Fly Bridge, offering an external raised driving position; and Tuna, which comes with a tuna tower. deltapowerboats.se; deltacarbonyachts.com
